    **https://github.com/matthewxgoad/investment-wizard**
    **https://matthewxgoad.github.io/investment-wizard/**
- A one-page application will allow beginner users in the stock market to see a quick run down of the most important information for them to make an informed decision on whether they should invest their money in a certain stock.
- Primary contributions: Client side JS, styling using Bootstrap, Project Management
- Technologies used: Bootstrap, Third-party APIs, JavaScript

## EXPERIENCE

**Production Manager**                                                                                            2021
**Anvil 1893 Entertainment** (*Money Court,* CNBC)                    Los Angeles, CA / Miami, FL
Created daily schedules and call sheets for a cast and crew of 50. Coordinated meals and managed time cards. Tracked production receipts and expense reports.

**Food Service Coordinator**                                                                    2020
**Red Skyline Productions** (*Cover Me Up,* Netflix)                          Los Angeles, CA
Created and enforced COVID safety procedures to safely feed a cast and crew of 50. This
included managing a team of cleaning and safety production assistants, creating daily food
order forms using Google Forms and Sheets, and negotiating catering costs.

**Technical Expert**                                                                              2019
**Apple, Inc.**                                                                                 St. Louis, MO
Uncovered customer needs through active listening and troubleshooting. Repaired iOS devices
quickly and precisely. Stayed current on new products and procedures.
